

Stormwater Memo

Pembroke Country Club Age-Qualified Village

94 West Elm Street, Pembroke, MA

July 28, 2022

Stormwater Summary

The project will be designed to follow and adhere to the Massachusetts Department of Environmental Protection Stormwater Standards. The site will be designed so that no new stormwater conveyances may discharge untreated stormwater directly to or cause erosion in wetlands or waters of the Commonwealth. The stormwater management systems shall be designed so that post-development peak discharge rates will not exceed pre-development discharge rates. All stormwater systems shall be designed to remove the standard amount of Total suspended Solids. A formal Stormwater Report and Operations and Maintenance plan shall be submitted during the design process.
