Executive Directors Report.
Finalizing all storm clean-up across all programs. The developments are really looking spectacular everywhere. We continue to experience a high number of turnovers, in the 20-30% range which is extraordinary. The big plus is, revitalizing old units and updating them. Next month I will be attending a conference on Martha’s Vineyard. The chair and Josh Smey will also be attending. It will delve into RAD (Rental Assistance Demonstration), a HUD Program that would allow us to convert 50 or fewer Federal Public Housing units to a voucher-based program. Chair asks the benefit and John states that it would allow the Authority or its non-profit the ability to keep 100% of the rental revenue (Hap and tenant portion) and rather than rely on HUD’s small financial assistance for maintenance and modernization – We would keep it. This could be great for our non-profit as it could be the developer/owner of the RAD development and generate a lot of capital. The chair is looking forward to the conference to push the non-profit and to learn more on RAD. Judy asks about the benefits to all parties: the residents and their
voucher being portable and the authority becoming more self-sufficient. That concluded the report.
