Regulation of the Pembroke Board of Health
Restricting the Sale of Tobacco Products

A. Statement of Purpose:

Whereas there exists conclusive evidence that tobacco smoking causes cancer, respiratory and cardiac diseases, negative birth outcomes, irritations to the eyes, nose and throat;\(^1\)

Whereas the U.S. Department of Health and Human Services has concluded that nicotine is as addictive as cocaine or heroin;\(^2\) and the Surgeon General found that nicotine exposure during adolescence, a critical window for brain development, may have lasting adverse consequences for brain development;\(^3\) and that it is addiction to nicotine that keeps youth smoking past adolescence;\(^4\)

Whereas a Federal District Court found that Phillip Morris, RJ Reynolds and other leading cigarette manufacturers “spent billions of dollars every year on their marketing activities in order to encourage young people to try and then continue purchasing their cigarette products in order to provide the replacement smokers they need to survive” and that these companies were likely to continue targeting underage smokers;\(^5\)

Whereas more than 80 percent of all adult smokers begin smoking before the age of 18, more than 90 percent do so before leaving their teens, and more than 3.5 million middle and high school students smoke;\(^6\)

Whereas 18.1 percent of current smokers aged <18 years reported that they usually directly purchased their cigarettes from stores (i.e. convenience store, supermarket, or discount store) or gas stations, and among 11\(^{th}\) grade males this rate was nearly 30 percent;\(^7\)

Whereas the Institute of Medicine (IOM) concludes that raising the minimum age of legal access to tobacco products to 21 will likely reduce tobacco initiation, particularly among adolescents 15 – 17, which would improve health across the lifespan and save lives;\(^8\)

Whereas 5.8% of Massachusetts youth currently use e-cigarettes and 15.9% have tried them;\(^9\)

Whereas the Massachusetts Department of Environmental Protection has classified liquid nicotine in any amount as an “acutely hazardous waste”;\(^10\)

Whereas educational institutions sell tobacco products to a younger population, who is particularly at risk for becoming smokers and such sale of tobacco products is incompatible with the mission of educational institutions that educate a younger population about social, environmental and health risks and harms;

Whereas the Massachusetts Supreme Judicial Court has held that “. . . [t]he right to engage in business must yield to the paramount right of government to protect the public health by any rational means”11.

Now, therefore it is the intention of the Pembroke Board of Health to regulate the sale of tobacco products.
