SNOW PLOWING APPLICATION PROCEDURE

The Department of Public Works of the Town of Pembroke requests written applications from contractors and/or individuals that wish to be considered for hire in our snow and ice control program.

The Public Works Department will be engaging the services of several vehicles for snow removal in several different weight categories. Separate contracts will be awarded in the various weight classifications. Consideration will first be given to the contractor/individual who has successfully provided snow and ice removal services to the Town in the past, and whose primary place of residence or business is in the Town of Pembroke.

All base rates are total hourly rates including vehicle, operator and accessories. The Town of Pembroke has established hourly rates for each rate classification as well as for permitted accessories.

The snow and ice season shall commence on November 1, 2015 and expire on April 30, 2015. All successful contractors/individuals are expected to have their equipment ready at the beginning of each season.

For the purposes of submitting an application you should be aware that it is impossible to predict how often and for how long equipment will be used in any given winter season.

Each application submitted shall include:

1. A copy of valid Massachusetts driver's license for each driver.
2. A copy of vehicle registration.
3. A filled in and signed W-9 form. (Page # 10)
4. A copy of Certificate of Insurance listing “Town of Pembroke” as the Certificate Holder
5. A signed copy of certificate of non-collusion. (Page # 8)
6. A signed workmen's compensation insurance exemption form or a certificate of workmen's compensation insurance. (Page # 9)
7. A signed copy of the snow plowing agreement. (Page # 12)
8. A signed copy of Tax Compliance Certification. (Page # 11)
9. A signed copy of the Snow Plowing Application. (Page # 7)

Contractors and/or individuals may submit applications for more than one vehicle. A separate application packet must be used for each vehicle.
1.0 NOTIFICATION

Notification will be made by Department of Public Works personnel. Upon notification all vehicles are to report immediately to the highway garage on Mattakesett St to punch in. Each contractor/individual has the obligation to notify the Department of Public Works of Telephone number changes as to where they can be reached for call-in.

2.0 SIGN-IN

Plowers must punch in on time cards at the Highway Garage. Plowing time will start at the time of call. A maximum of one half hour will be allowed from the time of call to the time of reporting to the Highway Garage. If the plower has not arrived within a half hour of the call, time will start when the plower punches in at the garage. All plowers must have a valid Massachusetts driver’s license in their possession when reporting to plow. Licenses will be spot checked by supervisors. Those without a valid license in their possession will not be allowed to plow.

3.0 ALCOHOL AND CONTROLLED SUBSTANCES

The use of alcohol and/or controlled substances by contractor/operators during snow plowing operations is strictly forbidden. Any contractor/operator suspected of such use by Town supervisors will be relieved of duty immediately, and may result in termination of contract with the Town.

4.0 CONTRACTOR CONDUCT

Courtesy will be the rule of the road at all times. Abusive language to the public will not be tolerated. If there is a controversy call the DPW Supervisor.

5.0 SNOW PLOWING

All vehicles will report with full tanks of gas and have chains available when weather requires. Equipment will arrive ready for operation and no compensation will be provided for time involved in the attachment or detachment of plowing equipment.
Each vehicle will be provided with a street listing of the designated route assigned. Each driver must acquaint him/herself with the route and check for new streets and/or deleted streets from the prior year's route.

All vehicles shall plow only the route assigned to them. If any vehicle is found outside the limits of its assigned route without justifiable reason the contractor/individual may be terminated.

Contract plowers while actively on the clock plowing for the Town, cannot be hired or requested to clear private driveways or walk; in any emergency situation the DPW Supervisor has the authority to use their discretion regarding this matter.

The vehicle, after sign in, will go immediately to the assigned route and commence plowing in the following manner:

5.1 Open every street on the route with at least one pass in each direction.

5.2 After every street on the route is open, widening out to edge of pavement or curb shall be done.

5.3 At intersections, where possible, plowing should be to the right to minimize the snow remaining in the intersection.

5.4 Intersections will be cleaned of snow only after each street has been widened to its maximum width.

5.5 When the contractor/individual feels that the route has been properly cleared of snow, he/she will meet with his/her route supervisor to make sure the route supervisor is satisfied with the route.

5.6 All contractor/individual plowers will be expected to remain on their routes for the duration of the plowing segment.

6.0 SIGN OUT

Plowers must return to the Highway Garage after their route has been satisfactorily cleaned up. If the contractor/individual is not needed on another route, he/she will punch out.

7.0 DOWN TIME REPAIRS

Each contractor/individual must make provisions for emergency repairs to the vehicle as necessary. If the vehicle is down for repairs, time will be deducted for the amount of time lost if it is for more than one hour.

If a vehicle must leave its route for repairs, the Highway Garage shall be notified as soon as possible. Routes have been assigned two vehicles and each operator must check with the other before leaving the route.
8.0 FUEL

Refueling of vehicles is the responsibility of the owner. Under **extreme emergency conditions** the Town will, if possible, provide a source of fuel. If it is Town fuel, cost will be deducted from the bill for the storm.

9.0 BALLAST

Ballast provided by the Town must be returned to the Town or the cost (based upon our estimate) will be deducted from the bill for the storm.

10.0 ROUTE SUPERVISORS

Route supervisors are assigned to designated areas of Town. They are to insure streets are cleared in a satisfactory manner. Route supervisors are to assist the driver if problems arise, keep track of vehicles in their area and investigate citizen complaints. Route supervisors can reassign any vehicle due to needs in other areas. This reassignment will come from the DPW Director, Highway Foreman or his designee.

11.0 REGISTRATION AND INSURANCE

The vehicle owner is responsible for properly registering and insuring the vehicle. Safe lighting on all vehicles must conform to all state requirements. The Town of Pembroke reserves the right to inspect all vehicles for equipment requirements and to insure all permitted accessories are as represented. Proof of workmen's compensation must be provided for any hired drivers.

12.0 PROPER OPERATION

Each contractor/individual is responsible to see that the vehicle is operated in accordance with all applicable laws, rules and regulations. Vehicle speed shall not exceed 20 miles per hour. All vehicles must have all required equipment and while plowing must have a yellow rotating warning light or strobe lights visible for 360 degrees; or an adequate warning light system built into the vehicle. Any driver involved in an accident which causes personal injury and/or damage to other vehicles and/or property shall **immediately** report the incident to the highway garage and the police.

13.0 PROPERTY DAMAGE

Each contractor/individual is responsible for the prevention or loss or damage to the property of the town and all adjacent property. Any damage, injury or loss resulting from the operation of the contractor/individual under the contract signed for snow plowing for the Town of Pembroke shall be the responsibility of the contractor/individual.

14.0 PAYMENTS

Each contractor/individual shall be paid at the contract rate for his/her vehicle(s). The contractor/individual shall be paid for the actual number of hours worked plus any time allowed in Section 2.0 of these regulations.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA. Use Form W-9 only if you are a U.S. person including a resident alien, to provide your correct TIN to the person requesting it (the requestor) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners’ share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester’s form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

• An individual who is a U.S. citizen or U.S. resident alien,
• A partnership, corporation, company, or association created or organized in the United States, or under the laws of the United States,
• An estate (other than a foreign estate), or
• A domestic trust (as defined in Regulations section 1.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners’ share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.
