SECTION 6.
No person shall break the surface of or dig up any sidewalk or other part of any public way or place thereon any staging or other temporary structure or move any building in or along the same without a written permit from the Board of Selectmen. Any permit issued therefor shall be in force for such time as the Board of Selectmen may specify and shall be subject to such conditions as they may prescribe, and in every case shall be upon the condition that during the whole of every night from sunset to sunrise lighted lanterns and proper barriers shall be so placed as to secure travelers from danger; and upon the further condition that the permittee shall indemnify the Town against the claims of all persons who may be injured in their persons or property by reasons of the exercise of the privileges conferred by the permit. Permits for moving buildings along the public ways shall be issued only after the applicant has secured from the Inspector of Buildings/Zoning Code Enforcement Officer the permit required under the provisions of the Zoning Bylaws. A permit shall be obtained from the Director of the Department of Public Works before any driveway or walk is constructed which extends over the wayline of any public way.

SECTION 6A - Driveway Permits
a. All hereafter constructed driveways or other entrances for motor vehicles which connect private property with a public way shall require a written permit from the Director of the Department of Public Works before construction.

b. Such driveways shall be located so as not to interfere with existing or proposed drainage structures or systems.

c. Such driveways shall abut the traveled portion of the way at the same level and shall extend from the traveled portion of the way to the private property line with a three (3) inch minimum pitch above the road grade at intersection. The minimum radius at the edge of the traveled way shall be ten (10) feet.

d. Earth materials located between the traveled portion of the way and the private property line shall be removed and replaced with twelve (12) inches of gravel and three (3) inches of bituminous concrete placed in two (2) layers for a distance to be determined by the Director of the Department of Public Works after consideration of the topography and soil conditions in the area.

e. A drain pipe shall be placed under such driveway as specified by the Director of the Department of Public Works if deemed to be necessary to prevent a drainage problem in the public way.
f. No such driveway shall be used and the Inspector of Buildings/Zoning Code Enforcement Officer shall not issue a Certificate of Occupancy for a newly constructed altered building to be serviced thereby until the Director of the Department of Public Works issues a Certificate indicating the proper completion of the driveway in accordance with the permit unless the Director of the Department of Public Works issues a written extension of time for such completion. No such extension of time shall exceed six (6) months.

SECTION 7.
A. Every owner or keeper of a dog who is three (3) months old or over shall license it with the Town Clerk between the first (1st) day of January and the twenty-eighth (28th) day of February of each year. The license fee shall be twelve dollars ($12.00) for female and male dogs and nine dollars ($9.00) for altered male and spayed female dogs. All licenses must be renewed by the twenty-eighth (28th) day of February or be subject to a late fee charge of fifteen dollars ($15.00). The owner or keeper of every dog which is so licensed shall cause it to wear at all times a metal license tag issued for this purpose by the Town Clerk. No person shall own or keep in the Town any dog which by biting, barking or howling, or in any other manner disturbs the peace or quiet of any neighborhood or endangers the safety of any person. (amended by Article 17 of April 22, 2008 ATM and Article 14 of April 24, 2012 ATM)

B. If the Animal Control Officer determines that a dog in its oestrus cycle or "in heat" is attracting other dogs and such attraction is causing damage or disturbance to any neighborhood, the Animal Control Officer shall order in writing the owner or keeper of such dog to restrain the dog for the duration of its oestrus cycle. If the Animal Control Officer determines that such owner or keeper is not complying with order, the Animal Control Officer shall impound said dog for the duration of its oestrus cycle at the expense of the owner or keeper.

C. Dog Leash Law
1. Any person owning or keeping a dog within the Town of Pembroke shall not suffer nor permit it to constitute a nuisance as hereinafter set forth: provided, however, nothing in this by-law shall be construed to limit or prohibit the use of hunting dogs during the hunting season, or the training of hunting dogs, or during field trials for hunting dogs.

2. If it appears to the Animal Control Officer, upon personal observation, or upon receipt of a complaint in writing under oath, that any dog owned or harbored within the Town is a nuisance by reason of one or any of the following:

   a. having bitten any person, or

   b. having been found running at large in any of the streets or public places in the Town, or upon premises other than premises of said owner or keeper, or on premises of said owner or keeper, unless it is effectively restrained by a chain or leash, or is under immediate and effective control of a handler, or is within and confined to a motor, or

   c. having killed or maimed or otherwise damaged any other domesticated animal, or

   d. having chased any vehicle upon any public way or way open to public travel in the Town,

then the Animal Control Officer may, upon such observation, or upon such further investigation of a complaint in writing under oath as the Animal Control Officer may deem necessary, which investigation may include a further examination under oath of the complainant or any other person,

(ii) apprehend and impound such dog in the Town Pound and impose, in addition to any penalties, an administrative charge consisting of the dog license fee if it is then unpaid plus twenty dollars ($20.00) per day boarding charges plus twenty-five dollars ($25.00) for a licensed dog or seventy-five dollars ($75.00) for an unlicensed dog, and/or

(iii) issue an interim order that such dog be impounded, restrained or muzzled for a period not to exceed fourteen (14) days.

(amended by Article 18 of April 22, 2008 ATM)

e. No dogs shall be allowed in any town cemetery either on a leash or running at large.

3. The Animal Control Officer shall make a written report of the actions taken pursuant to subsections 1 and 2 and the reasons therefor to the owner or keeper, and submit a copy of such report to the Board of Selectmen, no later than three (3) days after taking such actions. Upon receipt of such report, the Board of Selectmen may, after hearing, which may include an examination of the complainant and any other person under oath, make such further order or orders concerning such dog as may be deemed necessary.

4. The owner or keeper of any dog that has been the subject of such actions may file a request in writing with the Animal Control Officer that they be modified or vacated, or that the dog be released, and after investigation the Animal Control Officer may modify or vacate such actions order to release such dog, if the order or restraint was imposed by him. If the order was imposed by the Board of Selectmen, the Animal Control Officer shall submit a written report of the Animal Control Officer's investigation, with recommendations, to the Board of Selectmen, who may vacate such order. If the Animal Control Officer, after receiving such request in writing, declines to modify or vacate such actions, the owner or keeper may appeal to the Board of Selectmen.

5. All dogs within the town shall be licensed and registered as provided in Massachusetts General Laws Chapter 140 and Section 7 of Article XX of the Town By-laws.

6. The Board of Selectmen may from time to time adopt and publish such policies, registration fees and procedures as they deem necessary to enforce the intent and purpose of the Animal Control Regulations By-Law, or take any action relative thereto.

SECTION 8.
Whoever violates Section (7A) and/or (7C) of these Town of Pembroke Bylaws shall be liable to a fine of twenty-five dollars ($25.00) for the first offense, fifty dollars ($50.00) for the second offense and one hundred dollars ($100.00) for all subsequent offenses.

SECTION 9.0 Door-to-Door Solicitation
It is the purpose of this by-law to establish registration requirements and specific operational requirements for persons intending to engage in door-to-door canvassing or solicitation in the Town of Pembroke through the issuance of licenses and imposition of other limitations on such conduct for the purpose of protecting the Town’s residents from disruption of the peaceful enjoyment of their residences and from the perpetration of fraud and other crimes, and further, to allow reasonable access to residents in their homes by persons or organizations who wish to communicate either commercial or non-commercial messages. It is framed with deep respect for the principles embodied in the constitutions of the United States and the Commonwealth of Massachusetts and attempts to achieve a
workable balance between the right of free speech and the right of privacy. It is intended to be framed narrowly and construed strictly to achieve its purpose by imposing certain restrictions as to the time, place and manner in which solicitation and canvassing are conducted. It is not intended to be applied to political or religious activities for religious, political, newspaper distribution or public policy purposes or other non-commercial purposes, regardless of whether such activities include acts that would otherwise constitute soliciting or canvassing entitled to protection under the First Amendment to the United States Constitution.

A. Statutory authority; purpose.
This article, adopted pursuant to G.L. c. 43B, § 13 and Article 89 of the Amendments to the Constitution of the Commonwealth of Massachusetts, establishes permit requirements and specific operational requirements for persons intending to engage in door-to-door canvassing or solicitation in the Town of Pembroke, and this article is adopted for the reasons stated above.

apply for a certificate of permit at least fourteen (14) business days in
advance by filing a permit application form with the Board of Selectmen and
Police Chief. At their next regularly scheduled meeting, the Board of
Selectmen will act upon the permit application form in a posted Open
Meeting. Upon approval of the permit application form, all documentation
will be transferred to the Police Chief, along with a current copy of the
No Solicitation List.

Organization or individual application forms shall include the following
information:

(1) The name and address of the organization applying for permit and the names
and addresses of the organization's principal officers. If the organization
is a charitable organization, a copy of the Annual Registration Statement
filed with the Attorney General's Division of Public Charities must be
provided with this application. Failure to include a copy of the Annual
Registration Statement under such circumstances will render the application
incomplete and no action will be taken thereon; if the organization is a
professional solicitor or a commercial co-venturer for a charitable
organization, a copy of the contract with the charitable organization must
be provided with this application. Failure to include a copy of the
contract with the charitable organization under such circumstances will

applicant; and
(8) Make, model and permit number and state of any vehicle to be used by the

authorizing the Chief of Police or his agent to conduct a CORI (Criminal

fingerprints taken by the Pembroke Police Department.

D. Permit fee.
Each individual or organization applying for a certificate of permit or re-
permit shall pay to the Town: 1) an application fee of $25; 2) a fee of $5
for the cost of a permit card; and 3) a criminal history check
authorization fee of $60, which shall be used solely for fees and costs
associated with the administration of its state and national criminal
history records check system.

E. Permit cards.
(a) The Police Chief, after a review, but in no event more than fourteen
(14) business days after receipt of a fully-completed application, shall
furnish each person with a permit card which shall contain the following
information:
(1) The name of the person;
(2) A recent photograph of the person;
(3) The name of the organization, if any, which the person represents;

(b) Persons engaged in soliciting or canvassing, as defined by this Bylaw, must carry the permit card at all times while soliciting or canvassing and must present said card to any person solicited or canvassed or, upon request, to any police officer.

(c) Permit cards are valid only for the specific dates or time period specified thereon and in no case for longer than 90 days. Each such permit card shall state thereon the date upon which the permit expires. Upon the date so stated, the permit shall automatically expire. This provision, however, shall not bar an individual and/or organization from seeking and obtaining permit cards for successive ninety-day periods upon reapplication using the same process as that used for the initial application process.

(d) The Police Chief shall refuse a permit card to an organization or individual whose permit has been revoked within the previous two-year period for violation of any provision of this By-law or to any individual who has been convicted of murder/manslaughter, rape, robbery, arson, burglary/breaking and entering, or felony assault as such persons pose a substantial degree of dangerousness to minors, senior citizens, and other persons vulnerable to becoming victims of the violent crimes so listed. The Police Chief shall also refuse to issue a permit card to any person who is a sex offender required to register with the Sex Offenders Registry Board and who is finally classified as a Level 2 or Level 3 sex offender, as such persons have been found to have a moderate to high risk of re-offense and pose a substantial degree of dangerousness to minors, senior citizens, and other persons vulnerable to becoming victims of sex crimes.

F. Exceptions.

The provisions of this By-Law shall not apply to the following persons:

(a) Any officer or employee of the Town, county, state, federal government, or any subdivision thereof when on official government business.

If such a notice or sign is posted, the solicitor, canvasser or other person must refrain from entering the property, and if the notice or sign was not visible until the property was entered, the solicitor, canvasser or other person must then immediately leave the premises.

(b) No solicitor, canvasser or other person shall enter any premises which are identified on the "No Solicitation" list, described below, on file at the Pembroke Police Department.

(c) Any solicitor, canvasser or other person who has gained entrance to any residence, whether invited or not, shall immediately and peacefully leave the premises when requested to do so by the occupant.

(d) Immediately upon gaining entrance to any residence, each solicitor or canvasser, as defined by this Bylaw, must do the following:
Present his/her permit card for inspection by the occupant; 
(2) Request that the occupant read the permit card; and 
(3) Inform the occupant in clear language of the nature and purpose of 
his/her business and, if he/she is representing an organization, the 
name and nature of that organization.

such other activities.
(e) Utilize any form of endorsement from any department head currently 
employed by the Town of Pembroke.
(f) Solicit, canvass or conduct any other activity at any residence on 
any public way in a threatening, abusive, or illegal fashion.

I. "No Solicitation" list.
(a) Any person, firm or corporation who is the owner or lawful tenant or 
occupant of any private residence within the Town of Pembroke may 
prohibit the practice of going in or upon the private residence of such 
owner or occupant, by uninvited solicitors or canvassers, as defined in 
this article, by placing a sign upon its property which reads "No 
Solicitation" in a location which is reasonably visible to persons who 
intent to enter upon such residential property.
(b) Any person, firm or corporation who is the owner or lawful tenant or

be placed on said list by the Board of Selectmen’s staff.
(e) The Police Chief shall receive an updated list with each permit approved by the Board of Selectmen and shall supply every applicant for a certificate of permit with a copy of said list.

Such appeal must be filed in the Town Clerk's office within five days after receipt of the notice of denial or revocation. The Selectmen shall hear the appeal at its next regularly scheduled meeting after the filing of said written notice of appeal; provided, however, that if the Selectmen fails to make a determination within 30 days after the filing of the appeal, the permit shall be deemed granted or reinstated as the case may be.

L. Severability.
If any portion of this Bylaw should be determined by a court of competent jurisdiction to be invalid, such invalidity shall not affect the validity of this Bylaw as a whole or any other portion hereof. (ART. #12 STM 10/24/2016 with A.G. Amendment 2/24/2017)

SECTION 9.1 Criminal History Check Authorization

A. Purpose and Scope
This Bylaw authorizes the Police Department to conduct state and national fingerprint based criminal history checks for individuals applying for specific licenses in Town to enhance public safety, as authorized by Massachusetts General Laws Chapter 6, Section 172B½. To carry out the criminal history checks authorized by this by-law, the Police Department shall be authorized to use state and Federal Bureau of Investigation (“FBI”) records, provided, however, that such records shall not be disseminated to unauthorized entities and shall be maintained and disclosed in accordance with all applicable law.

B. Criminal History Check Authorization
The Pembroke Police Department shall, as authorized by Massachusetts General Laws Chapter 6, Section 172B½, conduct State and Federal Fingerprint Based Criminal History checks for individuals and entities for the following licenses:
- Hawking and Peddling or other Door-to-Door Salespeople
- Manager of Alcohol Beverage License
- Owner or Operator of Public Conveyance
- Dealer of Second-hand Articles
- Pawn Dealers
- Hackney Drivers, and
- Ice Cream Truck/Food Vendors
Said license and permit applicants, shall submit to, prior to action on their license, fingerprinting by the Pembroke Police Department along with a fee of sixty dollars ($60).

Upon receipt of the appropriate fee, the Pembroke Police Department shall notify the individual being fingerprinted that the fingerprints will be used to check the individual's criminal history records and obtain the individual's consent. After the applicant completes a consent form, provides his/her fingerprints and the appropriate fee, the Police Department shall transmit the fingerprints to the Identification Section of the Massachusetts State Police, the Federal Bureau of Investigation (FBI), and/or the Department of Criminal Justice Information System (DCJIS), or the successors of such agencies as may be necessary for the purpose of conducting fingerprint-based state and national criminal records background checks for the applicants specified in this Bylaw.

C. Use of Criminal Record by Licensing Authorities
Licensing and permitting authorities of the Town shall utilize the results of fingerprint-based criminal record background checks for the sole purpose of determining the suitability of the subjects of the checks in connection with the applications specified in this by-law. A Town licensing or permitting authority may deny an application for a permit/license on the basis of the results of a fingerprint-based criminal record background check if it determines that the results of the check render the subject unsuitable for the proposed licensed activity. The licensing authority shall consider all applicable laws, regulations and Town policies bearing on an applicant's suitability in making this determination.

Licensing and permitting authorities of the Town are hereby authorized to deny an application for any license specified herein and in the implementing regulations, including renewals and transfers of said licenses, from any person who is determined unfit for the license due to information obtained pursuant to this by-law. In rendering a fitness determination, factors considered by the Pembroke Police Department shall include, but not be limited to, whether the record subject has been convicted of (or is under pending indictment for) a crime, which bears upon his/her ability or fitness to serve in that capacity, any felony or misdemeanor, which involved force or threat of force, controlled substances or was a sex-related offense.
A record subject may request and receive a copy of his/her criminal history record from the Pembroke Police Department. Should the record subject seek to amend or correct his/her record, he/she must contact the Department of Criminal Justice Information System (DCJIS) for a state record or the FBI for records from other jurisdictions maintained in its file.

This Bylaw further authorizes the Pembroke Police Department to promulgate rules or regulations to implement this Bylaw, which may include, but shall not be limited to, establishment of submission deadlines, procedures for making recommendations to the licensing authority or making a licensing as a result of the criminal history check, procedures for assessing, correcting or amending any such record, criteria for fitness determinations, security of information obtained and penalties for failure to comply with this by-law.

If the Chief of Police determines that the false alarm was the result of any of the aforementioned causes, the false alarm shall not be recorded against the alarm user. The Chief of Police shall establish procedures to ensure the proper recording of false alarms.

ARTICLE XXXI-A – Demolition Delay Bylaw

Title of Bylaw
The Preservation of Historically Significant Buildings

Intent and Purpose
This by-law is enacted for the purpose of preserving and protecting significant buildings within the Town, which constitute or reflect distinctive features of the architectural, cultural, economic, political or social history of the town and to limit the detrimental effect of demolition on the character of the town. Through this bylaw, owners of preferably preserved buildings are encouraged to seek out alternative options that will preserve, rehabilitate or restore such buildings and residents of the town are alerted to impending demolitions of significant buildings. By preserving and protecting significant buildings, streetscapes and neighborhoods, this bylaw promotes the public welfare by making the town a more attractive and desirable place in which to live and work. To achieve these purposes the Historic District Commission is authorized to advise the Building Commissioner with respect to demolition permit applications. The issuance of demolition permits is regulated as provided by this by-law.

Definitions
APPLICANT-Any person or entity that files an application for a demolition permit. If the applicant is not the owner of the premises upon which the building is situated, the owner must indicate on or with the application his/her assent to the filing of the application.
APPLICATION-An application for the demolition of a building.
BUILDING-Any combination of materials forming a shelter for persons, animals, or property.
BUILDING COMMISSIONER – The person occupying the office of Building Commissioner or otherwise authorized to issue demolition permits.
COMMISSION – The Pembroke Historic District Commission or its designee.
DEMOLITION-Any act of pulling down, destroying, removing, dismantling or razing a building or commencing the work of total or substantial destruction with the intent of completing the same.
DEMOLITION PERMIT - The building permit issued by the Building Commissioner for a demolition of a building, excluding a building permit issued solely for the demolition of the interior of a building.
PREFERABLY PRESERVED - Any significant building, which the Commission determines, following a public hearing that it is in the public interest to be preserved rather than demolished. A preferably preserved building is subject to the three-month demolition delay period of this bylaw.
SIGNIFICANT BUILDING – Any building within the town of Pembroke, which is in whole or in part, predates 1900 (1899 and older) and which has been determined by the Commission or its designee to be significant based on any of the following criteria:

- The Building is listed on, or is within an area listed on, the National Register of Historic Places; or
- The Building has been found eligible for the National Register of Historic Places; or
- The Building is importantly associated with one or more historic persons or events, or with the broad architectural, cultural, political, economic or social history of the Town or the Commonwealth; or
- The Building is historically or architecturally important (in terms of period, style, method of building construction or association with a recognized architect or builder) either by itself or in the context of a group of buildings.

Procedure
No demolition permit for a building, which is in whole or in part predates 1900,
shall be issued without following the provisions of this bylaw. If a building is of unknown age, it shall be assumed that the building predates 1900 for the purposes of this bylaw.

An applicant proposing to demolish a building subject to this bylaw shall file with the Building Commissioner an application containing the following information:

- The address of the building to be demolished.
- The owner's name, address and telephone number.
- A description of the building.
- The reason for requesting a demolition permit.
- A brief description of the proposed reuse, reconstruction or replacement.
- A photograph or photograph(s) of the building.

The Building Commissioner shall within seven days forward a copy of the application to the Commission. The Commission shall within fifteen days after receipt of the application, make a written determination of whether the building is significant.

Upon determination by the Commission that the building is not significant, the Commission shall so notify the Building Commissioner and applicant in writing. The Building Commissioner may then issue the demolition permit.

Upon determination by the Commission that the building is significant, the Commission shall so notify the Building Commissioner and the applicant in writing. No demolition permit may be issued at this time. If the Commission does not notify the Building Commissioner within fifteen days of receipt of the application, the Building Commissioner may proceed to issue the demolition permit.

If the Commission finds that the building is significant, it shall hold a public hearing within thirty days of the written notification to the Building Commissioner. Public notice of the time, place and purpose of the hearing shall be posted in a conspicuous place in town hall for a period of not less than seven days prior to the date of said hearing and the applicant and the building inspector shall be notified in writing of the meeting time and place.

The Commission shall decide at the public hearing or within fourteen days after the public hearing whether the building should be preferably preserved. If agreed to in writing by the applicant, the determination of the Commission may be postponed.

If the Commission determines that the building is not preferably preserved, the Commission shall so notify the Building Commissioner and applicant in writing. The Building Commissioner may then issue the demolition permit.

If the Commission determines that the building is preferably preserved, the Commission shall notify the Building Commissioner and applicant in writing. No demolition permit may then be issued for a period of three months from the date of the determination unless otherwise agreed to by the Commission. If the Commission does not so notify the Building Commissioner in writing within twenty-one days of the public hearing, the Building Commissioner may issue the demolition permit.

Upon a determination by the Commission that any building, which is the subject of an application, is a preferably preserved building, no building permit for new construction or alterations on the premises shall be issued for a period of three months from the date of the determination unless otherwise agreed to by the Commission.

No permit for demolition of a building determined to be a preferably preserved building shall be granted until all plans for future use and development of the site have been filed with the Building Commissioner and have found to comply with all laws pertaining to the issuance of a building permit or if for a parking lot, a certificate of occupancy for that site. All approvals necessary for the issuance of such building permit or certificate of occupancy including without
limitation any necessary zoning variances or special permits must be granted and all appeals from the granting of such approvals must be concluded, prior to the issuance of a demolition permit under this section.

The Building Commissioner may issue a demolition permit or a building permit for a preferably preserved building within the three months if the Commission notifies the Building Commissioner in writing that the Commission finds that the intent and purpose of this bylaw is served even with the issuance of the demolition permit or the building permit.

Following the three-month delay period, the Building Commissioner may issue the demolition permit.

**Administration**

The Commission may adopt such rules and regulations as are necessary to administer the terms of this bylaw.

The Commission is authorized to adopt a schedule of reasonable fees to cover the costs associated with the administration of this bylaw.

The Commission may delegate authority to make initial determinations of significance to one or more members of the Commission or to a municipal employee.

The Commission may pro-actively develop a list of significant buildings that will be subject to this bylaw. Buildings proposed for the significant building list shall be added following a public hearing.

**Emergency Demolition**

If after an inspection, the Building Commissioner finds that a building subject to this bylaw is found to pose an immediate threat to public health or safety due to its deteriorated condition and that there is no reasonable alternative to the immediate demolition of the building or structure, then the Building Commissioner may issue an emergency demolition permit to the owner of the building or structure. The Building Commissioner shall then prepare a report explaining the condition of the building and the basis for his decision, which shall be forwarded to the Commission.

**Enforcement and Remedies**

The Commission and/or the Building Commissioner are each specifically authorized to institute any and all actions and proceedings, in law or equity, as they may deem necessary and appropriate to obtain compliance with the requirements of this by-law or to prevent a threatened violation thereof.

Any owner of a building subject to this bylaw that demolished the building without first obtaining a demolition permit in accordance with the provisions of this bylaw shall be subject to a fine of not more than Three Hundred Dollars. Each day the violation exists shall constitute a separate offense until a faithful restoration of the demolished building is completed or unless otherwise agreed to by the Commission. If a building subject to this bylaw is demolished without first obtaining a demolition permit, no building permit shall be issued for a period of two years from the date of the demolition on the subject parcel of land or any adjoining parcels of land under common ownership and control unless the building permit is for the faithful restoration referred to above or unless otherwise agreed to by the Commission.

**Historic District Act**

Following a determination that the building is significant and preferably preserved, the Commission may recommend to town meeting that the building be protected through the provisions of Massachusetts General Law, Chapter 40C, the Historic Districts Act. The steps required under M.G.L. Chapter 40C shall be followed prior to the establishment of a local historic district. Nothing in this by-law shall be deemed to conflict with the provisions of the Historic District Act, Massachusetts General Laws Chapter 40C. If any of the provisions of this by-law do so conflict, that act shall prevail.

**Severability**

In case any section, paragraph or part of this by-law be for any reason declared invalid or unconstitutional by any court, every other section, paragraph, and part shall continue in full force and effect.

The SWMP shall contain sufficient information for the Commission to evaluate the environmental impact, effectiveness, and acceptability of the measures proposed by the applicant for reducing adverse impacts from stormwater. The SWMP shall be designed to meet the Massachusetts Stormwater Management Standards as set forth in Section 7.D and the DEP Stormwater Management Handbook, Volumes I and II.

The SWMP shall fully describe the project in drawings and narrative. It shall include:

a. Locus map;

b. Existing zoning and land use at the site;
c. Proposed land use;
d. Location of all proposed easements;
e. Location of existing and proposed utilities;
f. Topographic survey showing existing and proposed contours at two foot intervals;
g. Existing site hydrology;
h. Description and delineation of existing stormwater conveyances, impoundments, and wetlands on or adjacent to the site into which the stormwater flows;

i. A delineation of 100-year flood plains, if applicable;

j. Estimated seasonal high groundwater elevation (November to April) in areas to be used for stormwater retention, detention, or infiltration;

k. The existing and proposed vegetation and ground surfaces with runoff coefficient for each;

l. A drainage area map showing pre- and post construction watershed boundaries, drainage area, and stormwater flow paths;
m. A description and drawings of all components of the proposed drainage system including;
(1) Existing and proposed locations, cross sections, and profiles of all brooks, streams, drainage swells and the method of stabilization; 
(2) All measures for the detention, retention, or infiltration of stormwater; 
(3) All measures for the protection of water quality; 
(4) The structural details for all components of the proposed drainage systems and stormwater management facilities; 
(5) Notes on drawings specifying materials to be used, construction specifications, and typicals; 
(6) Expected hydrology with supporting calculations.

n. Structural details for proposed improvements including location of buildings or other structures, impervious surfaces and storm drainage facilities, if applicable;
o. Timing schedules and sequences of development including clearing, stripping, rough grading, construction, final grading, and vegetative stabilization;
p. A maintenance schedule for construction;
q. Any other information requested by the Commission.

Standards – Projects shall meet the standards of the Massachusetts Stormwater Policy, including:

a. No new stormwater conveyances (e.g., outfalls) may discharge untreated stormwater directly to, or cause erosion in, wetlands or water of the Commonwealth;
b. Stormwater management systems must be designed so that post-development peak discharge rates do not exceed pre-development peak discharge rates;
c. Loss of annual recharge to groundwater should be minimized through the use of infiltration measures to the maximum extent practicable. The annual recharge from the post-development site should approximate the annual recharge rate from the pre-development or existing site conditions, based on soil types;
d. For new development, stormwater management systems must remove 80% of the average annual load (post development condition) of total suspended solids (TSS). It is presumed this standard is met when:
   (1) Suitable nonstructural practices for source control and pollution prevention are implemented;
   (2) Stormwater BMPs are sized to capture the prescribed runoff volume;
   (3) Stormwater BMPs are maintained as designed.
e. Stormwater discharges from areas with higher potential pollutant loads require the use of specific stormwater management BMPs (see Stormwater Management, Volume I: Stormwater Policy Handbook). The use of infiltration practices without pretreatment is prohibited.
f. Redevelopment of previously developed sites must meet the Stormwater Management Standards to the extent practicable. However, if it is not practicable to meet all the Standards, new (retrofitted or expanded) stormwater management systems must be designed to improve existing conditions;
g. Erosion and sedimentation controls must be implemented to prevent impacts during disturbance and construction activities;
h. All stormwater management systems must have an operations and maintenance plan to ensure that systems function as designed;

When one or more of the standards cannot be met, an applicant may demonstrate that an equivalent level of environmental protection will be provided.

E. Operations and Maintenance (O&M) Plans
An O&M plan is required at the time of application for all projects. The O&M plan shall be designed to ensure compliance with the permit, this By-Law, and the Massachusetts Water Quality Standards, 314 CMR 4.00, are met in all seasons and throughout the life of the system. The Commission shall make the final decision of what maintenance option is appropriate in a given situation. The Commission will consider natural features, proximity of the site to water bodies and wetlands, extent of impervious surfaces, size of the site, the types of stormwater management structures, and the potential need for ongoing maintenance activities when making this decision. The O&M plan shall remain on file with the Commission and shall be an ongoing requirement.
The O&M Plan shall include:

a. The name(s) of the Owner(s) for all components of the system;

b. Maintenance agreements that specify:
   (1) The names and addresses of the person(s) responsible for operations and
       maintenance;
   (2) A maintenance schedule for all drainage structures;
   (3) A list of easements with the purpose and location of each;
   (4) The signature(s) of the owner(s);

Stormwater Management Easements

a. Copies of stormwater management easements granted or to be granted to the
   property owner(s) shall be provided to the Commission by the property
   owner(s) as necessary for:
   (1) Access for facility inspections and maintenance;
   (2) Preservation of stormwater runoff conveyance, infiltration, and detention
       areas and facilities, including flood routes for the 100-year storm
       event;
   (3) Direct maintenance access by heavy equipment to structures requiring
       regular cleanout.

b. The purpose of each easement shall be specified in the maintenance agreement
   signed by the property owner;

c. Stormwater management easements are required for all areas used for off-site
   stormwater control, unless a waiver is granted by the Commission;

d. Easements shall be recorded with the Plymouth County Registry of Deeds prior
   to issuance of a certificate of completion by the Commission.

Changes to O&M Plans

a. The Owner(s) of the stormwater management system must notify the Commission
   of changes in ownership or assignment of financial responsibility;

b. The maintenance schedule in the maintenance agreement may be amended to
   achieve the purposes of this By-Law by mutual agreement of the Commission
   and the Responsible Parties. Amendments must be in writing and signed by all
   responsible parties. Responsible parties shall include the owner(s), persons
   with financial responsibility, and persons with operational responsibility.

Inspections - Inspections shall be conducted by the Commission at the following
stages:

a. Initial Site Inspection – prior to the approval of any plan;

b. Erosion Control Inspection – to ensure erosion control practices are in
   accordance with the filed plan;

c. Bury inspection – prior to backfilling of any underground drainage or
   stormwater conveyance structures;

d. Final inspection – after the stormwater management system has been
   constructed and before the surety has been released, the applicant must
   submit a record plan detailing the actual stormwater management system
   installed. The Commission shall inspect the system to confirm its “As-Built”
   features. The inspector shall also evaluate the effectiveness of the system
   in an actual storm. If the inspector finds the system to be adequate he
   shall recommend that the Commission issues a certificate of completion.

If the system is found to be inadequate by virtue of physical evidence of
operational failure, even if it was built as called for in the SWMP, it
shall be corrected by the permittee before the performance guarantee is
released. If the permittee fails to act, the Town of Pembroke may use the
surety bond to complete the work. Examples of inadequacy shall be limited
to: errors in the infiltrative capability, errors in the maximum groundwater
elevation, failure to properly define or construct flow paths, or erosive
discharges from basins.

Compliance with Commission regulations

All SWMP and O&M Plans shall conform to the requirements of the Commission
regulations, including, but not limited to:

a. Submittal Guidelines for Subdivision Plans, Site Plans or Other Types of
   Project Plans;
b. Stormwater Runoff Management Regulations;

c. Any other requirements of the Commission.

Compliance with Planning Board Regulations

All SWMP and O&M Plans shall conform to the requirements of the Planning Board regulations, including, but not limited to:

a. Rules and Regulations Governing the Subdivision of Land (dated November 19, 2003 or later);

b. Any other requirements of the Planning Board.

Surety - The Commission may require the permittee to post a surety bond, irrevocable letter of credit, cash, or other acceptable security before the start of land disturbance activity. The form of the bond shall be approved by town counsel and be in an amount deemed sufficient by the Commission to ensure that work will be completed in accordance with the permit. If the project is phased, the Commission may release part of the bond as each phase is completed in compliance with the permit but the bond may not be fully released until the certificate of completion has been issued as required by Section 9.

SECTION 8. ENFORCEMENT

A. Enforcement - The Commission or an authorized agent of the Public Works Director shall enforce this By-Law, regulations, orders, violation notices, and enforcement orders, and may pursue all civil and criminal remedies for such violations.

B. Civil Relief - If a person violates the provisions of this By-Law, regulations, permit, notice, or order issued there under, the Commission may seek injunctive relief in a court of competent jurisdiction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

C. Orders

The Commission or an authorized agent of the Commission may issue a written order to enforce the provisions of this By-Law or the regulations there under, which may include:

a. A requirement to cease and desist from land disturbing activity until there is compliance with the By-Law and the provisions of the Land Disturbance Permit;

b. Maintenance, installation, or performance of additional erosion and sediment control measures;

c. Performance of monitoring, analyses, and reporting;

d. Remediation of erosion and sedimentation resulting directly or indirectly from the land disturbing activity.

If the enforcing person determines that abatement or remediation of erosion and sedimentation is required, the order shall set forth a deadline by which such abatement or remediation must be completed. Said order shall further advise that, should the violator or property owner fail to abate or perform remediation within the specified deadline, the Town of Pembroke may, at its option, and in the exercise of such rights of entry as the Town may hold by easement or license agreement or court order, undertake such work, and all costs incurred by the Town shall be charged to the violator or property owner, to be recouped through all available means, including the placement of such liens on the property as may be allowed by law.

Within thirty (30) days after completing all measures necessary to abate the violation or to perform remediation, the violator and the property owner will be notified of the costs incurred by the Town of Pembroke, including administrative costs. The violator or property owner may file a written protest objecting to the amount or basis of costs with the Commission within thirty (30) days of receipt of the notification of the costs incurred. If the amount due is not received by the expiration of the time in which to file a protest or within thirty (30) days following a decision of the Commission affirming or reducing the costs, or from a...
final decision of a court of competent jurisdiction, the costs shall become a special assessment against the property owner under G.L. c.83, §14, and shall constitute a lien on the owners’ property for the amount of said costs. Interest shall begin to accrue on any unpaid costs that are apportioned to the statutory rate provided in G.L. c.80, §13 and otherwise at the statutory rate provided in G.L. Chapter 59, Section 57 after the thirty-first day at which the assessment first becomes due.

Criminal and Civil Penalties. Any person who violates any provision of this By-Law, regulation, or the terms or conditions in any permit or order prescribed or issued thereunder, shall be subject to a fine not to exceed $300.00 for each day or part thereof such violation occurs or continues or subject to a civil penalty, which may be assessed in an action brought on behalf of the Town in any court of competent jurisdiction.

Non-Criminal Disposition. As an alternative to criminal prosecution, or civil action, the Town of Pembroke may elect to utilize the non-criminal disposition procedure set forth in G.L. Chapter 40, section 21D, in which case the Commission shall be the enforcing party. The penalty for the first violation shall be $100. The penalty for the second violation shall be $200. The penalty for the third and subsequent violations shall be $300. Each day or part thereof that such violation occurs or continues shall constitute a separate offense.

Appeals. The decisions or orders of the Commission shall be final. Further relief shall be to a court of competent jurisdiction.

Remedies Not Exclusive. The remedies listed in this By-Law are not exclusive of any other remedies available under any applicable federal, state or local law.

SECTION 9. CERTIFICATE OF COMPLETION
The issuing authority will issue a letter certifying completion upon receipt and approval of the final reports and/or upon otherwise determining that all work of the permit has been satisfactorily completed in conformance with this By-Law.

SECTION 10. SEVERABILITY
The provisions of this By-Law are hereby declared to be severable. If any provision, paragraph, sentence, or clause, of this By-Law or the application thereof to any person, establishment, or circumstances shall be held invalid, such invalidity shall not affect the other provisions or application of this By-Law.

SECTION 11. TRANSITIONAL PROVISIONS
Residential property owners shall have 180 calendar days from the effective date of this By-Law to comply with Section 5 (Illicit Discharge and Detection) or petition the Commission for an extension. (Art.14 11/6/07 STM and amended for placement by Art. 11 10/21/08 STM)

The term vernal pool shall include, in addition to scientific definitions found in the regulations under the Wetlands Protection Act, any confined basin or depression not occurring in existing lawns, gardens, landscaped areas or driveways which, at least in most years, hold water for a minimum of two continuous months during the spring and/or summer, contains at least 200 cubic feet of water at some time during most years, is free of adult predatory fish populations, and provides essential breeding and rearing habitat functions for amphibian, reptile or other vernal pool community species, regardless of whether the site has been certified by the Massachusetts Division of Fisheries and Wildlife.

E. The Commission may adopt additional definitions not inconsistent with the Article 2 in its regulation promulgated pursuant to Article 12 of this By-law.

Article 3 Application for Permit and Request for Determination

A. Application for Permit No person shall remove, fill, dredge, alter or build upon or within 200 feet of a riverfront area along most perennial streams or within 100 feet of any bank, fresh water wetland, coastal wetland, beach, dune flat, marsh, meadow, bog, swamp or upon or within 100 feet of any estuary, creek, river, stream, pond or lake, or within 100 feet of any land under said waters or upon or within 100 feet of any land subject to tidal action, coastal storm flowage, flooding or inundation, or within 100 feet of the 100-year storm line, other than in the course of
maintaining, repairing or replacing but not substantially changing or enlarging, an existing and lawfully located structure of facility used in the service of the public and used to provide gas, electric, water, telephone, telegraph, and other telecommunication services, without filing a written application for a permit so to remove, fill, dredge, alter, or build upon, including such plans as may be necessary to describe such proposed activity and its effect on the environment, and receiving and complying with a permit issued pursuant to this By-law.

B. Form of Application     Such applications may be identical in form to a Notice of Intent filed pursuant to Massachusetts General Laws, Chapter 131, Section 40, shall be hand delivered or sent by mail to the Pembroke Conservation Commission (the Commission) and must be filed concurrently with or after applications for all other variances and approvals required by the Zoning By-law, the Subdivision Control Law or any other By-law or regulation have been obtained.

C. Request for Determination     Upon written request of any person, the Commission shall, within twenty-one days of closing the public hearing, make a written determination as to whether this By-law is applicable to any land or work thereon. When the person requesting a determination is other than the owner, notice of determination shall be sent to the owner as well as the requesting person.

D. Filing Fee     The Commission shall set a filing fee regulation, but no filing fee is required when the Town of Pembroke files an application for a permit.

E. Exceptions     The provisions of this section shall not apply to work performed for normal maintenance or improvements of land in agricultural use.

Article 4 Notice and Hearing

The Commission shall open a public hearing on the application within twenty-one days of receipt. When filing an Abbreviated Notice of Intent, Notice of Intent or Abbreviated Notice of Resource Area Delineation, the Commission shall give notice of the time and place of the public hearing, at the expense of the applicant, not less than ten days prior to the hearing and by publication in a newspaper of general circulation in Pembroke. The applicant at his expense shall mail or hand deliver notice of the time and place of hearing to all certified abutters of the land, on which the proposed work is to be done, at least 10 days prior to the hearing. The applicant shall present to the Commission proof of delivery of such notification at the time of the public hearing. Upon submittal, the Commission, its agents, officers, and employees, may enter upon privately owned land for the purpose of performing their duties under this By-law. The Commission is authorized to establish a schedule of fees and costs as may be reasonably required to process applications. The hiring of an outside consultant may be necessary at the expense of the applicant.

Article 5 Permit and Conditions

A. If after closing the public hearing, the Commission determines that the area, which is subject of the application, is significant to the interest protected by this By-law, the Commission shall, within twenty-one days of such hearing being closed, issue or deny a permit for the work requested. If it issues a permit after making such determination, the Commission shall impose such conditions as it determines are necessary or desirable for protection of those interested, and all work shall be done in accordance with those conditions.

B. The Commission is empowered to deny a permit for failure to meet the requirements of this chapter, for failure to submit necessary information and plans requested by the Commission, for failure to meet the design specifications, performance standards, and other requirements or regulations of the Commission, for failure to avoid or prevent unacceptable significant
or cumulative effects upon the wetlands values protected by this chapter and where no conditions are adequate to protect those values.

C. Lands within 100 feet of the specified resource areas, and with 200 feet of rivers, streams, and creeks, are presumed important to the protection of these resources because activities undertaken in close proximity to resource areas have a high likelihood of adverse effect upon them either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of the activities. These adverse impacts from construction and use can include, but not be limited to, erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat. The Commission therefore may require that the applicant maintain a strip of continuous, undisturbed vegetative cover within the aforementioned 100 foot or 200 foot area, unless the applicant convinces the Commission that the area or part of it may be disturbed without harm to the values protected by this chapter. In the case of areas within 200 feet of rivers, streams and creeks, no permit issued hereunder shall permit any activities unless the applicant, in addition to meeting the otherwise applicable requirements of the chapter, has proved by a preponderance of the evidence that there is no practicable alternative to the proposed project with less adverse effects, and should there be no practicable alternative, that such activities, including proposed mitigation measures, will have no significant adverse impact on the areas or values protected by this chapter.

D. Due consideration shall be give to any demonstrated hardship on the applicant by reason of denial, as presented at the public hearing. The Commission shall regard as practicable an alternative which is reasonably available and capable of being done after taking into consideration the proposed property use, over project purposes, logistics, existing technology, costs of the alternatives and overall project cost.

E. Permits shall expire three years from the date of issuance, unless renewed 30 days prior to expiration, and all work shall be completed prior to the expiration. It is the applicant’s responsibility to request an Extension. No proposal which has been unfavorably acted upon by the Commission shall be reconsidered within two years after the date of such unfavorable action unless by a 4/5 vote of the Commission.

**Article 6** **Emergency Projects**

This By-law shall not apply to any emergency project as defined in Massachusetts General Laws, Chapter 131, Section 40.

**Article 7** **Pre-Acquisition Violation**

Any person who purchases, inherits or otherwise acquires real estates upon which work has been done in violation of the provisions of this By-law or in violation of any permit issued pursuant to this By-law, shall forthwith comply with any such order and restore such land to its condition prior to any such violation, provided, however, that no action, civil or criminal, shall be brought against such person unless commenced within three years following date of acquisition of real estate by such person.

**Article 8** **Security**

The Commission may require as a permit condition that one or both of the following methods secure the performance and observance of other conditions:

- By bond or deposit of money or negotiable securities in an amount determined by the Commission to be sufficient and payable to the Town and separate from any other bonds.
- By conservation restriction, easement or other covenant running with the land, executed and properly recorded or registered in the case of registered land.

**Article 9** **Burden of Proof**

The applicant shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the application will not harm the interests protected by this By-law. Failure to provide adequate evidence shall be
sufficient cause for the Commission to deny a permit or grant a permit with
conditions or in the Commission’s discretion to continue the hearing to another
date to enable the applicant or others to present additional evidence.

Article 10  Relationship to Wetlands Protection Act

This By-law is adopted under the Home Rule Amendment of the Massachusetts
Constitution and the Home Rule statutes, independent of the Wetlands Protection
Act (M. G. L. Chapter 131 Section 40) and regulations (310 CMR 10.00) thereunder.
It is the intention of this bylaw that the purposes, jurisdiction, authority,
exemptions, regulations, specifications, standards, and other requirements shall
be interpreted and administered as stricter than those under the Wetlands
Protection Act and regulations.

Article 11  Enforcement

Any person or persons who violates any provision of this By-law or of any
condition or a permit issued pursuant to it shall be punished by a fine of not
more than $300.00. Each day or portion thereof during which a violation continues
shall constitute a separate offense; if more than one, each condition violated
shall constitute a separate offence. Upon request of the Commission, the Board of
Selectmen and Town Counsel shall take such legal action as may be necessary to
enforce this By-law and permits issued pursuant to it.

Article 12  Rules and Regulations

After due notice and public hearing the Commission may promulgate rules and
regulations of effectuate the purposes of this By-law. Failure by the Commission
to promulgate such rules and regulations or a legal declaration of their
invalidity by a court of law shall not act to suspend or invalidate the effect of
this By-law. (Art. 26 04/22/08 ATM)

ARTICLE XXXVII – STRETCH ENERGY CODE

(A) Adoption: The Town of Pembroke has adopted the provisions of 780 CMR 120.AA
(i.e., Appendix 120.AA of the State Building Code or the “Stretch Energy Code”),
as may be amended from time to time, in place of the provisions set forth under
780 CMR 13.00, 34.00, 61.00 and 93.00.

(B) Purpose: The purpose of the Stretch Energy code shall be to provide the Town
with a more energy efficient alternative to the base energy code otherwise set
